High-risk sellers (≥50 orders, score <3.5) plotted by review score, negative review rate, and order volume

● Critical Risk ● High Risk

Category Risk Matrix

Categories with elevated dissatisfaction levels (Reference line = 20% high-risk threshold)

Recommendations

Operational priorities to reduce customer dissatisfaction across the Olist platform

1 Delivery Delays are the Strongest Dissatisfaction Driver

9.5x

Higher negative review rate after 35 delivery days

35+ delivery days (72.1%) vs within 7 days (7.6%)

11,627 orders exceed the 21-day risk threshold

2 Dissatisfaction is Concentrated in a Small Seller & Category Group

19 Sellers + 5 Categories

Concentrating customer dissatisfaction

37.5% (sellers) 22.3% (categories)

vs. 14.7% platform avg negative review rate

3 North & Northeast Regions Lag in Delivery Performance

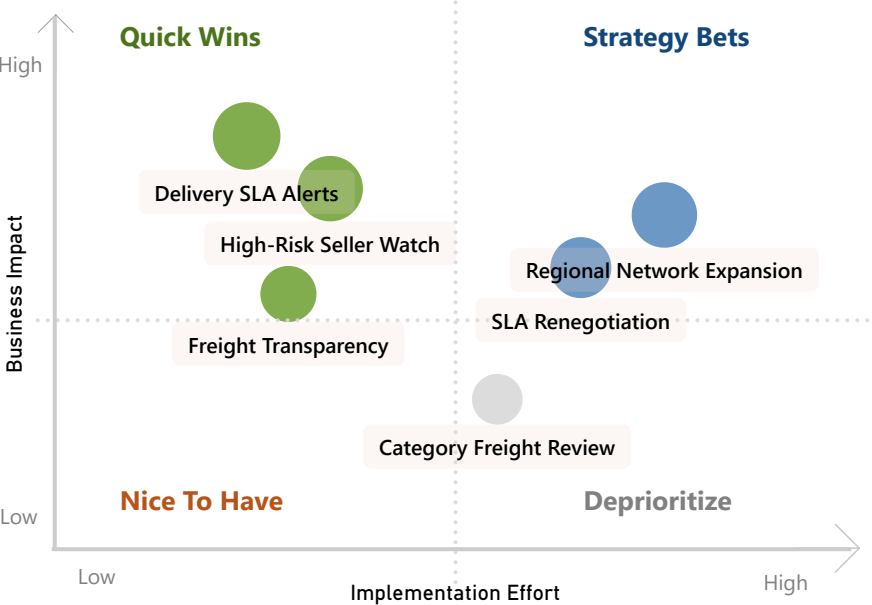

3–5x

Higher late rates in AL, MA and CE

vs. São Paulo (SP) benchmark (5.9%)

Impact vs. Effort Matrix

Initiatives prioritized by expected business impact and implementation effort

Priority Action

01

Delivery Reliability

Primary Impact: High-Value Prospect

- Day-21 SLA alerts for orders at risk of delay
- Carrier capacity pre-commitment
- Target late rate: 5–6% (SP/PR benchmark)

Expected Impact

~1000

negative reviews recoverable

02

Seller & Category Remediation

Primary Impact: Both Priority Segments

- Review high-risk seller performance
- Targeted seller coaching and probation programs
- Category audit: Office Furniture & Sports/Leisure

Expected Impact

~1400

negative reviews recoverable

03

Regional Delivery Investment

Primary Impact: Both Priority Segments

- Northeast carrier network expansion
- Fulfillment capacity increase in underserved states
- Focus regions: AL, MA & CE

Expected Impact

Unlock underserved regional demand

Potential Impact Scenario

If key initiatives are successfully implemented

~1000

Reviews Recoverable
(Delivery Improvement)

~2400

Reviews Recoverable
(Combined Actions)

14.7% → 12.2%

Dissatisfaction Rate
